

NATIONAL WATER WEEK

Water is Life. QUICK GUIDE TO GETTING INVOLVED 19-25 October 2026

WATER IS LIFE

(SCHOOL THEME: *Water Connects Everything*)

National Water Week is an opportunity to bring water front of mind and celebrate the people, places and systems that make healthy communities and thriving environments possible.

You don't need to organise a major event to take part!

1 DO SOMETHING

- Run the Connection Quiz with your team
- Hold a morning tea, lunch-and-learn, toolbox talk or staff activity
- Host a site tour, presentation, webinar or community activity
- Share a project, innovation, local water story or the people behind your work

2 REGISTER IT

- Register your activity even if it is small, internal, staff-only or private
- Help AWA capture the national reach of National Water Week
- Your activity can be public or private, online or in person

3 SHARE IT

- Share National Water Week through your organisation's channels
- Use the downloadable campaign graphics
- Encourage customers, partners and networks to participate
- Encourage others to register what they are doing

Start here...

Register your
activity >

Access the
Connection Quizzes >

Download logos
and graphics >

Access the School
Participation Kit >

National Water Week Partner and
Member Activation Toolkit >

Work with schools or communities?
The School Participation Kit includes ready-to-use activities, school Connection Quizzes, Water Ambassador opportunities, education resources and competition information.

Want more ideas?
The National Water Week Partner and Member Activation Toolkit includes campaign messages, suggested social and newsletter copy, activity ideas, education opportunities and useful links.

The important thing is to take part - and tell us you're taking part.

Water is Life.
